

Rural cooking with a modern approach

Orwells return for service on Wednesday, January 18th with a fabulous, very seasonal new menu. They offer a £10 lunch menu with traditional pub restaurant fayre as well as their signature restaurant known as The Room. This is where you can sample seasonal signature dishes compiled on a tasting menu format and where you can also observe the chefs in action through the viewing panel.

Orwells boasts a wealth of seasonality and sustainability – local fresh produce that is cooked to a high standard and delivered with a friendly, approachable and attentive service.

Orwells is a haven of warmth, good food and attentive service, located between Shiplake and Binfield Heath.

This Brakspear pub is headed up by chef proprietors Ryan Simpson and Liam Trotman, who within a year of opening, have been recognised as The Readers' Restaurant of the year voted by the *Good Food Guide*. They have also been voted Reading Restaurant of the Year and achieved 2 AA rosettes for culinary excellence.

Orwells is starting the New Year with an exciting Burgundy wine tasting event on Wednesday, February 1st. This is a celebration of the new Orwells wine menu that has been compiled by qualified sommelier and restaurant manager Andrew.

So whether you are in the mood for a pint of excellent Brakspear and some bar snacks or whether you want some traditional pub fayre with a modern twist, or maybe you are a foodie who wants to explore some culinary delights, Orwells is surely worth the visit – a great offering that demonstrates clear value for money.

Places for the Burgundy wine tasting are very limited and booking is recommended in general. Visit the website or call Orwells for menus, bookings or any other enquiries. Remember don't leave it too late to treat your loved ones on Valentine's Day as spaces are limited – menus are available either on the website or on request.

Orwells is at Shiplake Row, Binfield Heath, Henley-on-Thames, RG9 4DP. Call 0118 940 3673 or visit www.orwellsatshiplake.co.uk
